

Music

Our specialist music teachers work with all children each week. The program focuses on the development of musical skills and knowledge, and an appreciation of music through singing, listening, playing, moving and creating.

A team of instrumental music teachers provides small group lessons each week for Brass, Woodwind, Strings and Percussion instruments for students involved in the Instrumental Music Program. The strings program commences in Year 3. Lessons in all other instruments commence in Year 5. Inclusion in the program is by selection process in which factors considered include: musical aptitude, commitment of the program, physical and behavioural suitability.

Students are also selected to perform in Junior and Senior Bands, Junior and Senior Strings and a number of choirs. The program provides tremendous opportunities for our students and is highly acclaimed in both our local and wider community.
